EDUCATION

Bachelor of Technology in Computer Science, GLA University, Mathura, 7.35CGPA	June 2027
Intermediate, Shri Guru Ram Rai Public School, Bijnor	May 2023
High School, Shri Guru Ram Rai Public School, Bijnor	May 2021

INTERNSHIP/ TRAINING EXPERIENCE

Job Oriented Value-Added Course, GLA University, Mathura June 2025 – July 2025

Trainee

- Completed a certified Generative AI course from Jovac, gaining hands-on experience with transformer-based architectures (GPT, BERT) and text generation techniques.
- Learned core concepts of fine-tuning, and model evaluation for LLMs.
- Built and deployed mini-projects using APIs like OpenAI, Hugging Face, and Google Gemini for text and image generation
- Implemented GenAI workflows in Python using libraries such as TensorFlow, PyTorch, and LangChain.

PROJECTS

ResumeGenie

- Developed the responsive frontend interface for “ResumeGenine” using React.js, ensuring seamless user experience across devices.
- Implemented interactive components for resume creation, preview, and optimization using React hooks and state management.
- Integrated frontend with Flask backend APIs and Google Gemini 2.5 model for real-time resume generation and enhancement.
- Designed dynamic input forms for capturing user data (education, experience, skills) and rendering it into structured resume templates.
- Utilized Axios for REST API communication and handled asynchronous data updates for live content generation.
- Applied modern CSS (Tailwind/Bootstrap) for clean UI design and improved usability.
- Collaborated with backend and ML teams to align data flow and UI behavior for AI-based resume optimization.

• Placement Preparation App

- Developed a web application to help students practice coding, aptitude, and interview questions
- Designed an interactive and user-friendly interface for better learning and progress tracking
- Implemented authentication, quiz modules, and dashboard features
- Collaborated with teammates to plan, build, and present the project during Deviathon Hackathon

SKILLS

Programming Languages: Python, Java, HTML, CSS, JAVASCRIPT

Libraries: React.js

Data Tools: NumPy, Pandas

Deployment: Flask, Docker, GitHub Actions

Soft Skills: Effective Communication, Interpersonal Skills and Leadership

PROFESSIONAL ACHIEVEMENTS/ INSIGHTS

Participated in Deviathon Hackathon

- Qualified for 3rd Round in Deviathon Hackathon among multiple competing teams
- Recognized for developing an innovative Placement Preparation Web App
- Showcased strong teamwork, problem-solving, and presentation skills during the event

CO-CURRICULAR ACTIVITIES

- Coordinated SRIJAN (Cultural Fest, GLA, September, 2023).
- Attended a Workshop on 3D TECH

DECLARATION

I hereby declare that all the above mentioned information is true and correct to the best of my knowledge.
